Preface

The 2nd Annual International Conference on Social Science and Contemporary Humanity Development [SSCHD2016] has been successfully held in Wuhan, China during July 15-17, 2016. The SSCHD aims to provide a platform for researchers, academicians and industrial professionals from different jurisdictions and cultures to exchange views on their research results and development activities, with a specific focus on Social Science, Management, Economics and Education. This conference has played a significant role in promoting communications and academic exchanges among all the delegates, with great help for future global cooperation in businesses or researches.

The SSCHD2016 received over more than 400 submissions. The papers included in this volume were selected by a rigorous process of double peer review. First, all papers accepted for presentations were selected by a peer review system whereby the selected papers were revised based on reviewer's comments. Second, following the conference, an additional review of selected papers was conducted, resulting in further revisions that finally led to the papers included in this volume. The program of SSCHD2016 consisted of keynote presentation, invited sessions and technical workshops. We hope your experience is a fruitful and long lasting one. With your support and participation, the conference will continue its success for a long time.

To conclude, we would like to express our sincere and profound gratitude to all members of this conference committee and to everyone who has made this event a success. We wish you all a productive gathering and let us look forward to a smooth and momentous conference
